

KU RESEARCH PAYS

CAN YOU HELP US?

For the past 12 years, the University of Kansas Language Acquisition Studies Lab has been studying children's language development. Currently we are working with more than 70 families in more than 100 school attendance centers.

If you are interested in learning more about the opportunity for your child to participate, please fill out the information below and return it to your child's teacher.

Should your child enter our study your family will be financially compensated.
